Rhythm Farm Composition Worksheet!

Study the score below based on our Rhythm Farm Video and notice how there are four crotchet/quarter note beats per bar. (See our Time Signatures page for more information). Also notice that the beats are aligned.

Compose your own Rhythm Farm piece on the staves below, choosing from the rhythms above and mixing them up, or making up your own. You can add rests as well. Use our Rhythm page to help you. Make sure there are four beats in each bar and that the beats are aligned. Perform your piece with some friends when you have finished.
