THE ELEMENTS OF MUSIC

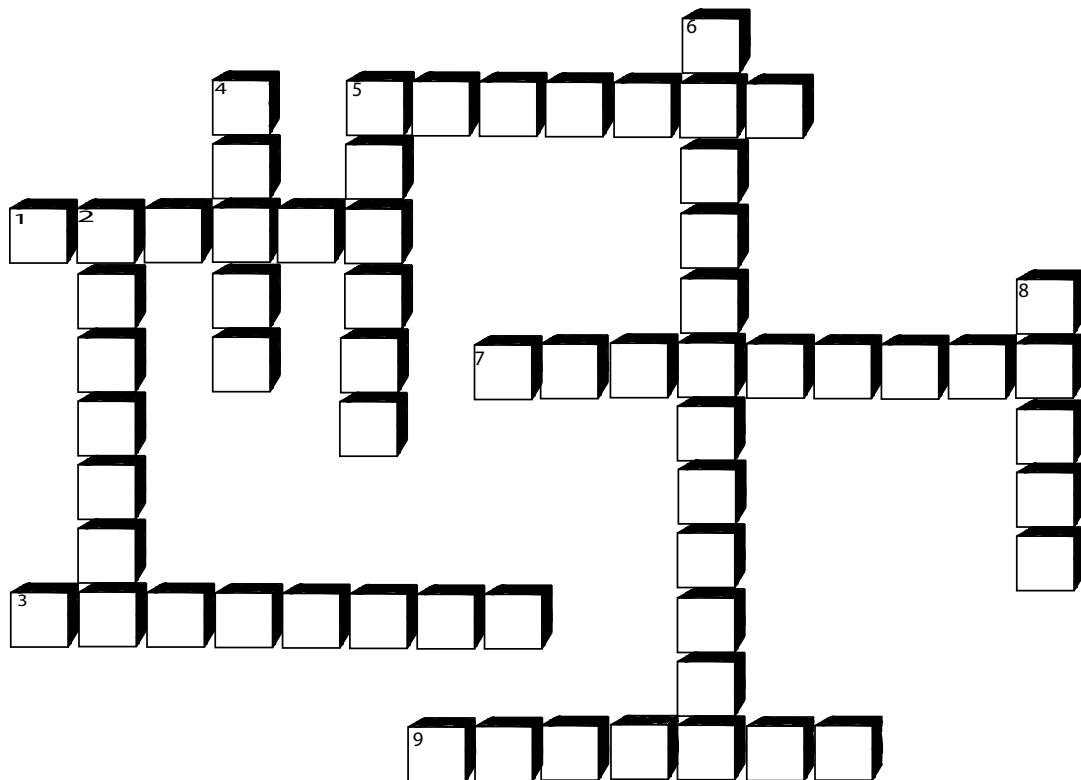

Fill in the crossword below by working out which element of music is being described by each definition in the clues.

Across

1. Different lengths of notes put together
3. Louds and softs, getting louder, getting softer
5. How the sounds are layered
7. How the music is put together, for example, there might be a section that keeps returning, and in between each return there is contrasting music
9. Used for dramatic effect or for a rest

Down

2. More than one note sounding at a time, or chords
4. High and/or low sounds
5. Instruments and combinations of instruments producing a particular tone quality
6. The way the note is played, for example short and sharp or long and smooth
8. How fast or slow the pulse of the music is

If you have time, colour in the title!
